CAN YOU HANDLE THE SPEED OF A NUMBER ONE SPINNAKER?

Photo: Hugh Bourne

Number One Sails' 505 spinnakers are designed and engineered to produce maximum speed on all offwind legs in all wind strengths. Results at national and international level prove this.

Our 505 spinnakers are designed to be used with the pole set low for tight reaches which gives the sail an asymmetrical shape with the fullness forward and a leech that will exhaust well. Vital sail area has not been sacrificed for broad reaches and runs.

Number One Sails,

New Road, Middlestown, Wakefield, West Yorkshire WF4 4NS. Telephone: 0924-274073
